Our Missions

HIPPE's Free Community Education Program aims to:

- Empower individuals, families, and communities through financial education, counseling, homebuying knowledge and investment fundamentals.
- Share wisdom attained by career-leading experts to shape the community into financially educated people.
- Transform those willing into strong homebuyers, confident investors, and overall goal achievers.

HIPPE's Local Community Impact Program aims to:

- Support other non-profit organizations in manpower, joint education efforts and monetary contributions for the overall benefit of the local and military Hawai'i communities.
- Promote multilateral understanding within the local and military Hawai'i communities.
- Fostering public understanding of the Hawaiian Islands Professional Panel of Expert Free Community Education Program.

HIPPE's Relocation Sponsorship Program aims to:

- Provide a positive impact as volunteer representatives of Hawai'i for relocating persons.
- Bridge the gap of Hawaiian culture, customs and ways of living for all HIPPE clients.
- Provide a smooth transition for HIPPE clients who relocate to Hawai'i. Our support includes virtual online tours, question/answer sessions, and useful information for families (education, community and local economy).
- We serve as a local, civilian extension to established military sponsorship programs.

Our Vision

The passion of creating a positive impact on the community has now flourished into a non-profit organization providing FREE financial literacy education, community programs and local culture ambassadorship throughout the entire state of Hawai'i. HIPPE's financial education is not provided by state and private schools, and unfortunately is not shared throughout families as much as it should be. Similarly crucial are Hawai'i's culture, customs and courtesy that must be made aware to those traveling or choosing to reside in Hawai'i. HIPPE's education and community programs instruct the youth of today, shapes the parents and grandparents of future generations to come, and fully preserves the cultural way of life to all those who visit. Whether you are a high school student, our local neighbor, or welcomed visitors; Hawaiian Islands Professional Panel of Experts empowers individuals, their families, and their future.

Our education is free to all. We can lead the way to your financial goals!
